WE MADE THE BEST-SELLING CLASS A MOTOR HOME EVEN BETTER.

At Winnebago Industries, we listen to RV enthusiasts, rigorously test components and conduct extensive field trials to continuously improve the Adventurer. Featuring all the comforts of home and a long list of available premium amenities, the 2005 Adventurer is designed with one goal in mind — your comfort.

Additional seat belts have been added to the dining area, giving you more seating options while traveling. The RV Radio, with its large, easy-to-operate controls, comes standard, and new this year are two remotes: one is hand-held, the other is mounted to the steering wheel. Or choose the available Kenwood Sirius Satellite Receiver. It comes with a complimentary one year subscription.

Premium items include flat-face TVs in the lounge and bedroom. A rear stereo system and Sleep Number Bed by Select Comfort are available in the bedroom. Solid-surface countertops are standard in the galley and available GPS system will help keep you on track during your travels. Read on, and learn which Adventurer is just right for you.
IT’S ALL INSIDE.
Step into the Adventurer’s spacious interior and enjoy a comfortable, roomy living area loaded with Smart Space™ design elements. Smart Space is our design philosophy that makes the most of each available inch by maximizing functionality and user-friendly features. Relax at the available residential-style dining table with four chairs. Or stretch out on the premium Stitchcraft furniture and watch the 24” flat-screen TV found in the front entertainment center (27” TV on 37B, 38J and 38R).

Choose from three striking interior color schemes and four wood choices to fit your style. Portsmouth Oak, Concert Cherry, Washed Maple or Sierra Maple cabinetry add to the Adventurer’s ambiance with their durable and beautiful catalyzed finish.

To help keep you comfortable, standard dual-glazed windows provide increased thermal efficiency. And to control the amount of light and for additional privacy, our standard day/night pleated shades are found in the lounge, dinette and bedroom areas.

The Home Comfort Plus Package includes an auxiliary automotive heater, insulated power roof vents in the bath and galley, and a heat pump for a convenient source of heat on cool mornings without starting the LP-fueled furnace.

A LITTLE SOMETHING FOR EVERYONE.
There’s no shortage of entertainment options in the Adventurer, which includes the 24” Sony® flat-face TV with Video Selection System (a 27” TV comes standard with the 37B, 38J and 38R). Additional available features include a DVD/VCR combo and manual, powered or in-motion digital satellite dish, so you’ll always be well connected. For movie-theater-quality sound, choose the available Deluxe Sound System with 5-Channel QSurrond™. To keep you entertained even when you’re not connected to shoreline or generator power, select the available 300-watt inverter.

For the gourmet, the galley has everything you’ll need to cook up a feast. Solid-surface countertops add functional work space with the flip-up extension and covers for the recessed sink. A water purification system with separate faucet comes standard. A three-burner range with oven and the 30” residential microwave with the sensor cook feature give you flexibility in food preparation. A large four-door refrigerator/freezer with icemaker provides plenty of cold storage and is available on most models, while the spacious pull-out pantry keeps non-perishables stowed away. For an added touch of elegance, choose the available Stainless Steel Package, which includes a stainless steel refrigerator, range and microwave; brushed nickel lighting fixtures; and decorative bath and cabinet hardware throughout.
MORE OF WHAT YOU LOVE.

A,B,C) The BenchMark™ full comfort dinette features innerspring seat cushions and contemporary styling, giving you the look and feel of residential furniture. Flip up the seats to access the large storage spaces or fold down the table to quickly convert the dinette into a comfortable bed (not available on the 38J or 38R). BenchMark also features additional seat belts, providing you with greater seating flexibility while traveling. There’s even an anchor for your child’s safety seat.

D,E,F) It’s a sofa! It’s a recliner! It’s a bed! It’s all three! It's the Rest Easy® multi-position lounge. At the touch of a button, it goes from a sofa to a recliner with a pull-out ottoman. Touch the button again and it’s a comfortable bed. Fabric covering is standard or you can upgrade to the available leather. A dual recliner feature is also available. Selected models feature an available fold-down armrest with beverage holder.

G) Arrive refreshed from your travels thanks to the highback cab seats. With multi-position armrests, swivel, recline and slide features, you can adjust to the position that fits you best. Available upgrades include six-way power assist and leather. The hoop-base lounge chair is not only attractive but can be repositioned anywhere you want when the motor home is not moving. It rocks, reclines, has a footrest and is also available in luxurious leather. And a multi-use slide-out lounge table is featured on the 33V, 35U, 37B and 38G. Just the place for your laptop or a cup of coffee.

H) The multi-function table provides dining for two, expands to accommodate four and also functions as a computer or hobby table (available on the 35U and 38G).

I) The dining table is available in most models and provides comfortable dining for two and easily expands to accommodate four place settings to entertain guests.
WELL THOUGHT OUT FROM THE INSIDE OUT.

A) Every part of the dash is designed with the driver’s needs in mind. Controls are conveniently located and feature large, easy-to-read switches. Driver and passenger map lights and a new center sunvisor come standard, while power sunvisors, operated with well-placed switches on the driver and passenger trim panels, are also available. The standard dash-mounted compass keeps you pointed in the right direction and indicates the exterior temperature at the touch of a button. The centrally mounted convenience center is easily accessible and includes cupholders and a storage area. Select the available GPS system to keep track of your location. And choose the rearview monitor system built into the dash with one-way audio. It allows you to back up and maneuver with confidence.

B) Pull out the standard passenger-side dash-mounted workstation and you’ll find a handy place for using your laptop computer, writing letters or playing cards. There is also a convenient storage area underneath.

C) The OnePlace® systems center places important and frequently used switches, gauges, levels and controls in one convenient location so you can check them at a glance. A courtesy light located above OnePlace allows you to easily locate the monitor panel at night.

D) Upgrade your listening choices with one free year of Sirius Satellite Radio programming when you select the available Kenwood® Sirius Satellite receiver, shown here. High-altitude satellites deliver 100 channels of crystal clear programming anywhere in the United States, without signal fades.

The RV Radio with cassette and CD player features large control knobs; easy-to-operate buttons; and a new, convenient steering wheel remote. When you’re parked, use the new hand-held remote.

E) The four available two-way radios have up to a five-mile range and recharge at their built-in charging station.

F) Interior climate control has never been better, thanks to Winnebago Industries’ exclusive TrueAir® residential central air conditioning. At the heart of the system is a Coleman®-Mach® unit, located below the floor, which provides a lower vehicle profile, reduces interior noise and enables easier servicing. It also eliminates roof runoff from A/C related condensation and lowers the vehicle’s center of gravity.

G) Winnebago Industries’ exclusive TrueLevel™ holding tank monitoring system incorporates Mirus™ detector cells to ensure accurate fresh and wastewater tank level readings. Mirus detector cells produce a microelectric field that detects liquid levels from outside the tank. No more probes to corrode or clog. Just true, accurate readings time after time.
A BEDROOM THAT OFFERS MORE THAN A GOOD NIGHT’S SLEEP.

The rear slideout creates a bedroom with abundant living and storage space, a clothes hamper (most models), a mirrored wardrobe and a changing area (37B incorporates two rear slideouts). Watch your favorite movie on the bedroom TV, thanks to the infrared remote extender that lets you use the front DVD/VCR remote in the bedroom. You can even upgrade to an available rear stereo system with AM/FM/CD player and alarm clock. Sleep tight on the walk-around queen-size bed with Serta® innerspring mattress.

A) Enjoy a pleasant night's sleep on the available queen-size Sleep Number Bed by Select Comfort. Using the hand-held remotes on each side of the bed, you can quickly and independently adjust the mattress firmness level to your ideal level of comfort and support.

B) A spacious and well-designed bath area awaits and features the Moen® Posi-Temp® control to maintain shower temperature, even when water pressure fluctuates. Available on most models is the shower package with fold-down shower seat and hand-held showerhead.

C) The 37B features a spacious double-slide bedroom with two lounge chairs and tuck-away ottomans. Or opt for one lounge chair with ottoman and a functional desk area. For added storage, the ottomans have a flip-up top.
GET AT EVERYTHING WITH EASE.
A) A Winnebago Industries original, StoreMore® is the industry’s premium slideout system. StoreMore features large, well-lit exterior storage compartments designed to accommodate bulky and odd-shaped items. Automatic exterior compartment lights are door activated and a master light switch is located in the entrance area. Best of all, these compartments extend along with the slideroom for easy access without crawling under the slideroom. You’ll also appreciate how easy it is to open the exterior compartment doors, thanks to single-paddle latches and gas struts.

B) Adventurer comes equipped with an exterior entertainment center that includes AM/FM stereo with an antenna, CD player with remote, 12-volt DC receptacle, TV jack, 110-volt outlet, speakers and a removable table. The compartment locks securely. A hookup for a portable satellite dish in the electrical service center is also included (satellite dish not included).

C) Rinse off muddy or sandy gear outside at the exterior wash station. This heated compartment houses major plumbing and service points. The QuickPort™ service connection hatch features a convenient opening for the electrical cords and hoses to pass through. This unique design allows you to close your compartment doors even when connected to the electrical and sewer hookups at the campground.

D) The sewer hose includes our exclusive QuickConnect™ coupling valve and storage holster for added convenience.

THE SAME STANDARDS INSIDE AND OUT.
We believe the same high standards we apply to construction should apply to interior design. That’s why we design efficient floorplans based on customer input, why we look for durable fabrics in pleasing colors, and why we handcraft our own cabinets using traditional panel and rail construction.

BUILT TO A HIGHER STANDARD. The Adventurer features a crowned, one-piece fiberglass roof skin backed with a 10-year limited parts-and-labor roof skin warranty. Fiberglass offers superior strength, attractiveness and durability compared to rubber roofs found on many competitive models. Over time, rubber roofs are susceptible to chalking, streaking and degradation, and have less puncture and tear resistance than fiberglass.

WE ARE COMMITTED TO SERVICE. We back our motor homes with the best after-the-sale service in the industry. This includes a 12-month/15,000-mile basic limited warranty; 36-month/36,000-mile warranty on structure; standard 10-year limited parts-and-labor roof skin warranty; and complimentary 24-hour Roadside Assistance Program. TripSaver Fast Track Parts guarantees that in-stock warranty parts ship directly to your dealer within 24 hours. Winnebago Industries has a nationwide dealer service network.

CERTIFIED QUALITY. Recreation Vehicle Dealer Association members annually rate RV manufacturers on the quality of their products, and on their sales and service support. Winnebago Industries has achieved the coveted Quality Circle Award every year since its inception, the only RV manufacturer to do so.

WARNING: JOINING WIT HAS BEEN KNOWN TO CAUSE EXCESSIVE FUN. Winnebago-Itasca Travelers (WIT) is a club for owners of Winnebago Industries motor homes. WIT is a great way to meet people and offers you caravans and rallies, local and state group activities, and other benefits for RVers.

SUPERSTRUCTURE is the term given to Winnebago Industries’ structural motor home design and construction. Rather than a single component, it is the culmination of design integration that incorporates steel and aluminum substructures; composite-design laminated floor risers; interlocking joint technology; and Thermo-Panel® floor, roof and sidewalls to form a high-strength, durable vehicle body.

Thermo-Panel manufacturing combines a durable exterior panel with welded aluminum support substructures. The substructures are embedded in a high-density, block-foam insulation core to create a strong, durable, yet lightweight sidewall. Just another Winnebago Industries’ invention.

A Interlocking joint construction utilizes advanced extruded aluminum structural components to create integrated floor-to-sidewall and sidewall-to-roof joints. This design effectively distributes the weight of the walls and roof, making a stronger and more durable body than competitor designs that rely on screws to carry the weight.

B The foundation substructure assembly is precision-aligned to maximize strength and cross-coach support as well as durability.

C Laminated risers feature a welded aluminum core for superior strength and provide a stable base for the floor structure and storage compartments.

D Critical steel components are treated using an advanced electrodeposition coating process that provides superior corrosion protection.

NOT ALL MOTOR HOMES ARE CREATED EQUAL. As you take a closer look, you’ll see that there is much more to the Winnebago Adventurer than a long list of standard features and compelling floorplans. Beneath it all you’ll find a SuperStructure® foundation of strength and durability, and Winnebago Industries’ recognized service and warranty support.

Seat belts are your most important hookup. Always buckle up.
