Now is the time for diesel luxury and performance.

The power, performance and comfort of a full-featured diesel pusher are yours in the 2007 Itasca Meridian®. It all starts with a Freightliner® chassis boasting a 350hp Caterpillar® diesel engine and a six-speed Allison® transmission. Step inside and you'll see how our SmartSpace® design philosophy maximizes functionality and convenience while offering more user-friendly features. Choose from three open, generous floorplans with flat-floor slideouts and power locking mechanisms, three fabric options and three wood choices to create the Meridian of your dreams.
Enjoy a relaxing evening at the movies in the comfort of your Meridian. The entertainment center boasts a 24” flat-face TV and a Home Theater Sound System with DVD player. Further enhancements include an amplified antenna, video selection system and a 600-watt inverter that lets you enjoy TV or movies without shoreline or generator power. A 2,000-watt inverter/charger is also available.

Stitchcraft custom furniture provides a number of seating options. Depending on your floorplan, it may include the Rest Easy® lounge, plush Euro Chair with ottoman, banquette and/or a hoop-base lounge chair that can be placed anywhere when the coach is parked. All are available in UltraLeather™ for an added touch of luxury.

Day/night pleated shades provide multiple levels of light and privacy. They cover the dual-glazed, thermo-insulated windows, which are flush-mounted for added style and thermal efficiency.

**Satellite TV** Add the available in-motion satellite dish and it automatically locks on and tracks digital satellite feeds at the push of a button. It’s compatible with all receivers and service providers.*

*Satellite TV requires a subscription. See your dealer for details.

**Available Euro Chair** Relax in this stylish UltraLeather recliner (NA 39K).
Bedroom  You’ll relax in peaceful comfort night after night in the spacious bedroom. The beautiful cabinetry provides abundant storage, including a cedar-lined wardrobe.

Linen Closet  The linen closet provides plenty of storage for extra linens, towels and bath accessories.

Make Room
The bedroom slideout creates plenty of room for a walk-around queen bed. It also provides plenty of space for storage, such as the mirrored wardrobe and underbed compartment (NA 39K). Enjoy your favorite late-night show before bed on the 20” LCD TV (flat-screen on the 36G). You can also add the rear stereo system, featuring a CD/DVD player, AM/FM radio, alarm clock and an input for an MP3 player.

In the bathroom, a skylight above the shower lends a spacious feel while highlighting upscale features like the residential-height toilet and Moen® chrome faucet. The shower features a Moen Posi-Temp® valve that maintains a consistent shower temperature even if water pressure fluctuates. An available shower package provides a fold-down shower seat and a handheld showerhead. Extra storage can be found in the linen closet and the hamper on the 34H.

Washer/Dryer  Select the available washer/dryer and enjoy the convenience of never needing to stop at the Laundromat.

WEB  Sleep Number® Bed
The available Sleep Number Vantage Point bed by Select Comfort™ lets you adjust the firmness of each side of the bed independently to your Sleep Number—the Key to a Perfect Night’s Sleep.”
Look What’s Cooking

Prepare even the most extravagant meals in this full-featured galley. The 30” microwave/convection oven with range fan comes with sensor cook. Upgrade to the four-door refrigerator/freezer with icemaker for additional cold storage. Solid-surface countertops and sink covers create a workspace large enough for everything on your menu. The galley faucet doubles as a pullout sprayer for cleanups or rinsing fresh produce.

Our SmartSpace design philosophy adds value to the galley with features like full-extension drawer slides and a pullout pantry with adjustable shelves. Dining options include a classic dining table and chairs or the BenchMark™ full comfort dinette with innerspring cushions for extra support. A multi-function dining table is also offered, providing seating for up to four people and doubling as a computer desk.

**Galley** The refrigerator features Titanium Touch stainless finish doors that have the look of stainless steel, resist fingerprints and are warmer to the touch than traditional stainless steel. The doors also have a steel core so you can use your favorite kitchen magnets.

**Drawer Slides** Drawers open completely on full-extension drawer slides.

**Wastebasket** We pay attention to the smallest details, even adding formed handles to the wastebasket that accommodate plastic grocery bags.

**BenchMark** This innovative dinette offers innerspring cushions, large storage bins and converts into a comfortable bed.

**Dining Table** An available table provides elegant dining for two people and expands to seat four.

**Multifunction Table** This available table doubles as a computer desk and expands to accommodate four dinner guests.
The Meridian gives you full command with an ergonomic dash and a touchpad transmission control. The high-back driver and passenger seats feature adjustable lumbar support and can be upgraded to UltraLeather for an added touch of luxury. The passenger seat is available with a footrest and the driver’s seat can be enhanced with a six-way power pedestal.

The available power sunvisor upgrade makes visor adjustment as easy as the touch of a button. Shades on the driver and passenger windows have both opaque and sheer sections for excellent glare protection.

The rearview monitor provides added peace of mind when backing and maneuvering. A sideview video camera system can also be added which is activated by your turn signal and allows the driver to view the side of the coach through the rearview monitor.

The RV Radio® includes AM/FM stereo, CD player, weather band and large, easy-to-use buttons and knobs. Upgrade your RV Radio with the available Sirius® Satellite® radio package. Sirius brings you 120 channels of crystal-clear programming and a free six-month subscription.

*Sirius Satellite radio not available in Canada.

**Dash**

Designed with ergonomic styling, the dash places controls right at your fingertips, including a steering wheel remote for the RV Radio.

**KeyOne™**

Allows you to open the entrance door, storage compartments and dual fuel-fill doors with a single key. For added convenience, unlock and lock the doors with the keyless remote.

**Side Cameras**

Available side-mounted video cameras provide a clear view of the side of the coach when turning.

**Leveling Jacks**

New for 2007: our exclusive three-position hydraulic switching system. Control your jacks from the A) driver’s seat, B) entrance door or C) service center. Watch the jacks as you lower them from the entrance door or service center for perfect placement on jack pads.
**Get Hooked Up**

The service center makes hookups a snap with color-coded labels. The heated compartments are full of well-planned features like the QuickConnect® coupling valve, QuickPort® service connection hatch, and the residential-style, full-coach water filtration system.

QuickPort eliminates the hassle of feeding hoses through a tiny access hole, while still allowing bay doors to close when connected to hookups.

The QuickConnect coupling valve is an easy-to-operate connection point for quick and easy hookups. For added convenience it even has its own storage holster. A wash station lets you clean up outside to keep muddy feet from tracking inside coach.

A number of Smart Storage™ features let you haul more gear. These include the StoreMore® slideout system and custom-designed compartments such as the ladder storage sleeve and the available pullout trays. You’ll find a portable satellite dish hookup in the service center (satellite dish not included).

---

**Exterior Entertainment Center** includes AM/FM stereo, CD player, speakers, 12-volt powerpoint, 110-volt outlet and a TV jack.

**Available Pullout Trays** Provide quick access to stored items (NA 39K).
The Meridian is loaded with features that make life better. The standard patio awning or available electric patio awning is great for tailgating or enjoying a nice breeze in the shade. And no matter where you park, you’ll have access to 110-volt power from the 8,000-watt Onan generator.

A rugged diesel engine gives you confidence on any road while an exhaust brake provides extra stopping power on hills without excessive wear on the brake pads.

When it’s time to store your Meridian, the battery disconnect switch provides a simple way to prevent battery drain. Breakaway mirrors fold tight to the coach for extra storage clearance.

The Itasca Meridian is exclusively offered on a Freightliner® chassis, specifically designed and created for RV applications. Freightliner has a well-known reputation for providing top-quality chassis and vehicles. Front and rear suspensions, designed to work as an integrated system, provide the surest, smoothest ride in the industry. And “bump steer”? With Freightliner, it’s a thing of the past. Even when your motor home comes in contact with a pothole, there’s virtually no steering-wheel motion in reaction to the suspensions’ movement. Top that with a network of more than 400 diesel service locations in the United States and Canada, many open 24 hours a day 7 days a week. That means less downtime and quick return to your travels.

Eliminate the guesswork when it comes to tank levels with our exclusive TrueLevel™ holding tank monitoring system. It incorporates detector cells that read liquid levels from outside the tank. No probes means no more corrosion, just accurate readings time after time.

This energy management system monitors electrical usage and automatically cycles appliances on and off to prevent power overloads.

The TrueAir residential central air conditioning system with heat pump cools 40% faster and runs 10% quieter than roof airs. It is powered by a Coleman®-Mach® cooling unit located in the basement for a lower vehicle profile.
Vinyl Tile Floorcovering

Note: Dimensions shown are for sleeping space only and may vary due to styling differences. Dashed lines denote overhead storage areas.

The 2007 coaches have arrived.
Winnebago Industries employs an exclusive 12-stage automotive-style dip tank process to apply an advanced electrodeposition coating on critical steel structural components that instills each motor home with improved strength and durability.

**Strong as Steel**

- **Solid Foundation**
  - Fiberglass Roof
  - E-Coating

Today, Winnebago Industries brings that reputation for quality and its 48-year history of motor home innovation to the design and construction of every motor home we build. Itasca motor homes are built by Winnebago Industries, the company that defined the motor home industry. The company that transformed the motor home concept into a way of life. Today, Winnebago is the only company that manufactures motor homes. As the only company to bring you the Itasca name, we are committed to the quality, design, and craftsmanship that sets Itasca apart from the rest.

**Built to Last.**

- **Built by Winnebago Industries.**
  - **Built to Last.**
  - **BUILT BY WINNEBAGO INDUSTRIES.**

Whether it's sending every coach through a high-pressure water tunnel to check for leaks or labeling each individual wire and bar-code parts to save time and frustration during service, Winnebago Industries provides increased puncture and tear resistance.

**Attention to Detail**

- **Interlocking Joints**
  - The floors, sidewalls and roof are all integrally connected using interlocking joints. This creates a coach body that acts as a cohesive unit for improved strength and durability.

**The Meridian features a crowned, one-piece fiberglass roof, structural components that include an advanced electrodeposition coating on critical steel structural components, and aluminum truss work provides a solid, flat foundation for floors and sidewalls. Winnebago Industries engineers also take special care to distribute the weight of components for unmatched corrosion protection.**

- **Fiberglass also competes models which can chalk, streak and degrade over time. Fiberglass also provides increased puncture and tear resistance.**
