Elegant living in a nimble, efficient coach
A sleek and stylish home on the road

The Winnebago® Navion® is proof that good things come in powerful, efficient packages. Built on the proven Mercedes-Benz® Sprinter chassis, the Navion is available in four floorplans, each with one or two slideouts that expand your living space with the touch of a button. A full galley makes meal prep a pleasure, while swivel cab seats provide added seating options in the lounge and dining area. Each floorplan features a different bedroom layout in order to fit your unique lifestyle. Follow your own road without sacrificing the finer things in life, in the Winnebago Navion.
Four very livable floorplans and two attractive interior décor options make it easy to tailor your Navion to your needs and tastes. Each floorplan features a slideout that expands the lounge area; choose from a U-shaped dinette (24J), standard dinette (24D, 24G), TrueComfort+ Sofa with table (24G, 24V), or L-shaped sectional dinette with table (24V) and dual recliners with a table (24V). For more versatility, Primera® by Ultrafabrics® swivel cab seats with optional cab seat lounge cushions provide added seating when it’s time to socialize or take in a movie on the HDTV.
From casual dining to gourmet feasts, the Navion’s well-equipped galley makes cooking a pleasure. The two-burner range and the touch-control microwave/convection oven handle cooking and baking duties, while the double-door compressor refrigerator/freezer keeps things cool — without tapping into your propane supply.
Navion | Bedroom / Bathroom

A variety of innovative sleeping options are available with the Navion. The rear slideout on the 24G provides extra room for the walkaround queen bed, while the 24D features a walkaround queen Murphy+ Bed that folds up out of the way when not in use. In the 24V, our Flex Bed system quickly converts two twin beds to a single king bed. A cabover bunk is available on every floorplan to boost sleeping capacity, and every floorplan features a private bath with separate shower, flexible showerhead and retractable self-cleaning shower screen.
Up front, the Navion cab puts you in complete command. Seats are fully adjustable, with lumbar, recline, swivel and slide functions. Information and entertainment are at your fingertips, thanks to the 9” touch screen Infotainment Center with Rand McNally RV GPS. The Navion provides added safety while on the road, thanks to the Mobileye® Collision Avoidance System (NA 24D). When your day’s work is complete, draw the sliding, pleated windshield blinds to help create a restful night.
The Navion’s attractive exterior gloss is highlighted by your choice of two deluxe graphics package or one of four new full-body paint designs. Off-the-grid power is supplied by two 100-watt solar panels and the 3,600-watt Cummins Onan MicroQuiet™ LP generator (or available 3,200-watt Cummins Onan® Diesel generator). And the powered patio awning with LED lights, plus the exterior speakers, let you make yourself comfortable and fully at home in camp.
Navion | SuperStructure

Interlocking Joints Specially engineered interlocking joints connect the floor, sidewalls, and roof where competitors often rely on simple screws to bear the weight.

Laser-Cut Tubing Precision laser cutters create precise joints in structural steel that are stronger and require less welding.

Fiberglass Roof The one-piece fiberglass roof is backed by a 10-year limited parts-and-labor roof skin warranty.

Thermo-Panel® Sidewalls By layering fiberglass and high-density block foam insulation with welded aluminum support structures, we create some of the industry’s strongest, most durable, and lightweight sidewalls.

Embedded Steel Metal substructures embedded into the sidewall provide solid attachment points to keep cabinets and appliances mounted securely in place.

E-coating An electrodeposition coating helps protect critical steel components.

Solid Framework Structural extruded aluminum creates an extremely strong and solid frame.

From our smallest Class C coach to our largest diesel-pusher, coaches are built to Winnebago’s legendary SuperStructure® construction design. It’s a process developed and refined over more than 60 years of building some of the strongest, most durable coaches in the industry.

SuperStructure

TESTING
Before rolling out of our factories, every coach undergoes an extensive 113-point inspection. Each coach also passes a high-pressure water test that simulates rain at a rate of 50-inches per hour to check for leaks. During the design process, our computer simulations, physical testing center, and rigorous test track ensure each model is built to last.

DETAILS
At Winnebago, we treat the features you can’t see with the same care as the ones you can. Look in the access panels of some of our competitors’ coaches and you’ll see loose insulation and wires haphazardly strewn about. Winnebago maintains a clean fit and finish throughout so your coach will last for the long haul.

BUILT IN-HOUSE
We process and finish key aluminum parts. We rotocast our own plastic components. In fact, we manufacture most of our own parts so they are designed to fit the space, rather than fitting the space to an awkward off-the-shelf component size.

BUILT TO LAST
Call (641) 585-6936 or (800) 643-4892 or visit us online at Winnebagolnd.com/company/visit for more information.

Visit BetterBuiltRVs.com to gain real insight into what goes into a Winnebago motorhome.
The slideout provides added room for the Murphy+ Bed, while the dinette quickly converts to a comfortable bed for added sleeping capacity.
Dual slideouts provide added room to the main living area and the rear bedroom, which also features a walkaround queen bed!

The Holcombes

Peter, Kathy, and Abby - have been full-time RVing since 2014. Using photos and videos shot by Peter, a professional photographer, the family has documented their many adventures around the continent including hiking, paddling, climbing, canyoneering, fishing, and more. All from the comfort of their Winnebago.

You can follow their journey at WinnebagoLife.com. You’ll also find hundreds of other great stories from GoLife’s outstanding contributors, along with how-to articles, gear reviews, RVing tips, and much more.

Exterior speakers
Ladder (NA 24G)

OPTIONAL EQUIPMENT
Bike rack (24D requires Alcoa forged aluminum wheels)

Heating & Cooling
15,000 BTU air conditioner
20,000 BTU low-profile furnace

OPTIONAL EQUIPMENT
15,000 BTU air conditioner w/heat pump

Electrical System
Service Center light, cable TV input, 30-amp. power cord, portable satellite dish hookup, QuickPort® service connection hatch
Auxiliary start circuit
Exterior duplex
Exterior antenna jack
Battery disconnect system (coach)
Automatic dual-battery charge control
AC/DC load center, 45-amp. converter/charger
2 deep-cycle, Group 24 RV batteries
3,600-watt Cummins Onan® MicroQuiet® LP generator
1,000-watt pure sine wave DC/AC inverter
(2) 100-watt solar panel/battery charger w/controller, junction box, and plug for additional portable solar panel

OPTIONAL EQUIPMENT
3,200-watt Cummins Onan® Diesel generator

Plumbing System
Service Center color-coded labels, pressurized city water hookup/tank diverter valve, drainage valves, exterior wash station w/lighted pump switch
10’ sewer hose
TrueLevel® holding tank monitoring system
6-gal. 110-volt/LP water heater w/energy Management System (NA 24G, 24D)
Tankless water heater (24D, 24G)
Permanent-mount LP Tank w/remote fill w/power switches
Winterization Package water heater bypass valve and siphon tube
On-demand water pump
Lockable water tank fill
Sewage pump macerator (24V)
Holding tank flushing system

OPTIONAL EQUIPMENT
Heated drainage system
Tankless water heater (24J, 24V)

Safety
LP, smoke, and carbon monoxide detectors
10 BC fire extinguisher
Ground fault interrupter
Child seat tether anchor (NA 24V)
High-mount brake lamps
Daytime running lamps

Warranty
12-month/15,000-mile basic limited warranty
36-month/36,000-mile limited warranty on structure
10-year limited parts-and-labor warranty on roof skin

Footnotes
1. The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please contact your dealer for further information.
2. The load capacity of your motorhome is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motorhome.
3. Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.
4. Capacities shown are tank manufacture’s listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
5. Actual towing capacity is dependent on your particular loading and towing circumstances which includes the GVWR, GAWR, and GCWR, as well as adequate trailer brakes. Please refer to the Operator’s Manual of your vehicle for further towing information.
6. See separate chassis warranty.
7. See your dealer for complete warranty information.
NA Not Available
Not all items available in combination. See dealer for details.
Winnebago® continuing program of product improvement makes specifications, equipment, model availability, and prices subject to change without notice. Published content reflects the most current product information at time of printing. Please consult your dealer for individual vehicle features and specifications.
