

 **ABILITY EQUIPPED**

The freedom of travel.  
The comforts of home.

ABILITY EQUIPPED INTENT

**WINNEBAGO**

# Ability Equipped Intent

For RVers with physical challenges, the new Winnebago Intent™ can be specially equipped to allow you to:

- Travel comfortably to visit family and friends – and still sleep in your own bed each night!
- Bring pets or service animals along with you in the motorhome
- Travel to faraway places without the hassles of flying
- Get away from the routine of everyday life and build lasting memories

The following modifications are available on the 26M and 30R floorplans:

- Ricon S-Series platform wheelchair lift with 800-pound lifting capacity
- ROM powered roll-up lift door won't interfere with the awning hardware. Wall-mount and key-fob remote controls allow a wheelchair user to independently enter and exit the coach
- 23" high queen bed with Ideal Rest digital control mattress allows easier transfer to and from a wheelchair; the head of the bed can be power-raised and lowered using switches on each side of the bed
- Large roll-in style shower with vertical-mount assist bar and adjustable height shower head make bathing easier (A wall-mount folding bench seat is also available)
- Expanded hallway and toilet areas are for greater accessibility (an optional folding assist bar can be added near the toilet if desired)
- Many other modifications for your comfort and convenience

## Weights | Measures

	26M	30R
Length	26'10"	30'10"
Exterior Height <sup>1</sup>	12'	12'
Exterior Width <sup>2</sup>	8'5"	8'5"
Exterior Storage <sup>3</sup> (cu. ft.)	57	83
Awning Length	19'	22'
Interior Height	7'	7'
Interior Width	8'	8'

1. The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please contact your dealer for further information.
2. Floorplans feature a wide-body design - over 96". In making your purchase decision, you should be aware that some states restrict access on some or all state roads to 96" in body width. Before making your purchase decision, you should confirm the road usage laws in the states of interest to you.
3. The load capacity of your motorhome is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motorhome.

Not all items available in combination. See dealer for details.

Winnebago's® continuing program of product improvement makes specifications, equipment, model availability, and prices subject to change without notice. Published content reflects the most current product information at time of printing. Please consult your dealer for individual vehicle features and specifications.
