WINNEBAGO

The Way To Go™

A better solution.

The joy and comfort of RV travel doesn't have to end with mobility limitations.

For more than three decades, Winnebago has offered customization services for numerous wheelchair customers. We understand the nuance of placement and use – our accessibility enhancements aren't simply add-ons.

Now, we've built on that expertise and are proud to offer a multi-product line of accessibility enhanced motorhomes.

Winnebago's Accessibility Enhanced (AE) line gives wheelchair travelers comfort and privacy with roll-in bathrooms, properly placed assist bars, and devices that not only make mobile travel enjoyable, but day-to-day living more effortless.

New Possibilities

A Winnebago Accessibility Enhanced motorhome opens up a wider and richer world to you.

Travel comfortably to visit family and friends – and sleep in your own bed each night.

Our AE motorhomes feature plenty of room, comfortable seating and sleeping, a full galley, and your own private roll-in bath. Your motorhome can also serve as your own private retreat when you arrive at your destination.

Visit faraway places without the hassles of flying.

No security lines, no boarding or deplaning hassles, no luggage restrictions, no flight delays – you're free to go wherever and whenever you want, in complete comfort and privacy.

Bring your pets or service animals along with you.

A motorhome protects pets from heat and cold in the security of familiar surroundings. Food and water are close at hand, and there's even a pet leash tiedown under the patio awning.

Escape from the routine of everyday life and build lasting memories.

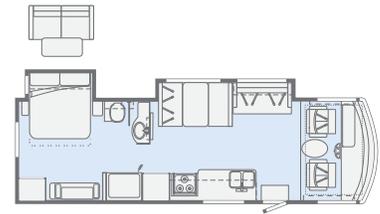

RVing combines freedom and comfort, and brings people closer together as they share the joy of travel and discovery. As millions of Americans have discovered, there's no better way to travel than in an RV.

Intent 30R AE

The gas-powered Intent is a clean-sheet design that reimagines the modern motorhome. More fully featured than many competitors' mid-priced models, the Intent offers an easy-to-drive size that can fit into almost any National Park campsite. Narrow cab pillars offer outstanding visibility, while two slideouts add extra living space to the master bedroom and attractive lounge and dining area. The long list of standard features includes exchangeable LP tanks, satellite-ready 39" HDTV, and powered patio awning with LED lighting.

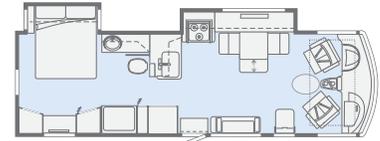

Intent™ 30R AE

Adventurer 30T AE

Winnebago's top-of-the-line gas coach, the Adventurer is loaded with amenities typically reserved for diesel pushers, including full-body paint, Corian® countertops and Primera® covered furnishings. At 31 feet in length, the Adventurer is the perfect accessible travel partner, a go-anywhere coach with enough elbow room for comfortable living and entertaining.

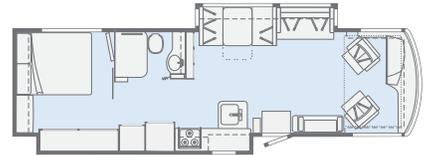

Adventurer® 30T AE

Forza 34T AE

One of the few mid-entry diesel pusher motorhomes on the market, the Forza is perfectly suited for Winnebago's accessibility enhancements. Taking full advantage of the 340-hp Freightliner® chassis, the Forza delivers a smooth, well-mannered ride, with more than ample luxury, space and power. And, like all Winnebago diesel pushers, the Forza comes with a 3-year/100,000 mile warranty.

Forza® 34T AE

Winnebago quality. Winnebago support.

No one knows RVing like Winnebago. Here's why smart RVers have chosen Winnebago for 60 years.

Flexible, functional design We maximize space and build in multi-functionality, so you get more flexibility to configure and use your RV the way you want to.

Structural integrity From the all-steel cab surround to the interlocking joints of our SuperStructure® construction to our immersive e-coating process, every Winnebago motorhome is engineered for strength, durability and safety.

Superb build quality Your Winnebago is built to provide years of reliable service, thanks to advanced manufacturing techniques and quality control systems perfected over many years and hundreds of thousands of RVs.

Comprehensive dealer network An extensive network of U.S. and Canadian dealers, selected for their customer focus, service expertise and financial strength, means you are never far from qualified service.

Strong after-sale support We back our motorhomes with best-in-class support, including our comprehensive warranty, TripSaver® emergency parts shipping program, and complimentary roadside assistance.

Corporate stability Winnebago has been in continuous operation since the first RVs rolled off our line in 1958.

A vibrant community Winnebago Outdoor Adventures hosts numerous caravans every year, while Winnebago International Travelers Club™ chapters hold rallies and gatherings for owners. Online communities abound, starting with WinnebagoLife.com.

Enjoy the freedom of travel in the comfort of your own Winnebago Accessibility Enhanced motorhome. To learn more, please contact:
