

## Ability Equipped Motorhomes

*"Moving forward with innovation and quality"*

### What Is Ability Equipped?

Ability Equipped is the term used to describe a Winnebago Industries motorhome that has been outfitted to meet the individual needs of a customer who faces physical challenges. It can include any number of features including wheelchair lifts, roll-in showers, conveniently located controls, and a host of other items. Ability Equipped means convenience and opportunity without sacrificing style or function.

### The Leader

You may recognize Winnebago Industries as the leader in quality recreation vehicles. After all, our name is synonymous with motor homes the world around. But what you may not realize is that we are also a leader in the design and manufacture of vehicles that enable individuals with special mobility concerns to travel freely and comfortably.
