The Itasca® Sunrise® and Sunrise SE® truly are great motor home values, combining Winnebago Industries quality with an impressive list of standard features and a very affordable price. With seven models to choose from, including the exciting new Sunrise 30W which features a galley/dinette slideout, the Sunrise family offers something for just about everyone.

Like all Itasca motor homes, many features that would be upgrades on other motor homes are standard on the Sunrise. These include ceiling-ducted air conditioning, electric remote exterior mirrors, and basement storage. In the living area you'll notice Flexsteel® furniture and handsome wood cabinetry with slide-out cabinet doors. The new 30W, shown here, is highlighted with a neo-angled shower with glass door, an off-set queen-size Serta® mattress with two wardrobes and a galley/dinette slideout. Winnebago Industries' exclusive SlideOut® Hydraulic Slideout System, which allows interior and exterior storage compartments to extend with the slideout, is standard on all Sunrise slides.

Several Sunrise and Sunrise SE models feature a convenient pantry for easy-access to food items.

The available cab area workstation is perfect for writing letters to family and friends or working on your laptop computer. The workstation neatly tucks away when not in use.

The galley in the new 30W slides out and features an angled design for increased functional space. It is highlighted by a Magic Chef® 3-burner range with oven and attractive vinyl plank flooring.

Driving the Sunrise or Sunrise SE is as easy as living in it, thanks to the comfortable cab seats with fixed lumbar support and an available rearview monitoring system. On Sunrise, UltraLeather HP® driver and passenger seats are also available.

SUNRISE DECOR OPTIONS
To assure their strength and durability, fabrics selected for use in the Sunrise and Sunrise SE must pass a series of rigorous tests. Just one example is the "double rub" test, where a machine mechanically simulates a person getting in and out of a seat up to 30,000 times. (This equates to nearly four times a day for over 20 years!)

Silverado Seaspray Almond Cream
Portsmouth Oak Woodgrain
In addition to restyled Stitchcraft furniture and new Portsmouth Oak woodgrain cabinetry, the 2001 Sunrise SE's standard feature list now includes ceiling-ducted roof air and a Comfort and Convenience Package, complete with couch overhead lights, beveled wood-edge dinette table and galley countertops, a beverage tray, makeup lights in the bath and a wall-mounted clock.

**SUNRISE SE DECOR OPTIONS**

- **Moonstone**
- **Silverado**
- **Portsmouth Oak Woodgrain**

The front 19" color TV with remote and video selection system is another nice standard feature. All Sunrise and Sunrise SE models are digital satellite system ready.

The all-new flush-mounted monitor panel includes a generator start/stop switch and hourmeter (with available generator) and water heater indicator lights. The **PowerLine®** Energy Management System, standard on the 33V and 35C, efficiently allocates power to keep your systems running smoothly.

A residential-height toilet with foot flush pedal, shower with flexible shower head, and large mirror with makeup lights are among the 31B bathroom's premium features.

Large 4" drawer and door handles are another user-friendly feature of the Sunrise and Sunrise SE.
What sets a Winnebago Industries motor home apart? You've already seen that we offer more on the inside. But our advantages are much more than simply increased interior comfort. From our smooth, one-piece fiberglass Thermo-Panel® exterior (which you can see), to the welded steel structure, our motor homes are built on (which you can't see), and from the fit and finish of our storage compartments (which you can see), to the one-of-a-kind joints that secure our walls to the floor and ceiling (which you can't see), our motor homes are simply built to a higher standard. A standard we've been improving on for more than forty years.

Sunrise models feature rear heated pass-through storage compartments and insulated bell-line storage doors with a single-handle latch and gas struts for easy one-handed opening. Sunrise models (30W, 33V and 35C) with front sliderooms feature Winnebago Industries' StoreMore Hydraulic Slideout System. StoreMore allows interior and exterior storage compartments to extend with the slideroom. For easy loading and unloading, lights are located within the StoreMore storage compartments.

Our one-piece fiberglass roof offers more strength and durability than the rubber roofs found on most other comparably priced motor homes. Built with our proven Thermo-Panel construction, it features a crowned exterior design that easily sheds water. We're so sure of our roof's integrity, we back it with a 10-year limited parts and labor warranty, one of the best in the industry.

Sunrise Floorplans

This all-new 30' wide-body contains many of the same features you'll find in much larger coaches such as an angled galley, a roomy cross-aisle bath and the StoreMore Hydraulic Slideout System.

This 32' wide-body includes a swivel chair with pull-out table in the living area, private bath with shower/tub and large wardrobe.

This 33' wide-body slide includes a comfortable sofa/sleeper and an L-shaped galley with pantry. Our StoreMore Hydraulic Slideout System provides easier access to exterior storage compartments.

The 35' wide-body offers a couch/bed in the living area and a pull-out table next to the swivel chair. Our StoreMore Hydraulic Slideout System provides easier access to exterior storage compartments.
Both Sunrise and Sunrise SE are equipped with standard features like a ladder, aluminum bumper with end caps, trailer hitch and fresh water winterization system. For added comfort, dual-glazed, thermo-insulated tinted windows that reduce noise and light transmittal are available on Sunrise SE and standard equipment on Sunrise.

For your outdoor enjoyment, all Sunrise and Sunrise SE models can include an available exterior entertainment center complete with AM/FM cassette (or available CD), 12 volt power supply and a 110 volt outlet.

The standard awning rail does more than support the available awning. Its integrated gutter also serves to channel water to the front and rear of the motor home, away from the face of the awning.

The available Onan® MicroQuiet® 4,000 generator is highly efficient and produces very little noise. 5,500 and 7,000 watt Onan Marquis Gold™ generators are available on select models.

Sunrise SE Floorplans

29A
This 29' wide-body includes a dinette and couch/bed in the living area, angled galley for added workspace, and large, split-bath design.

26P
This 26' wide-body offers all the necessities, including full private bathroom, folding shower door and queen-size bed.

31B
This 31' wide-body includes a comfortable swivel chair in the living area, spacious split bath and large bedroom.

WARRANTY  
12-Month/15,000-Mile Basic Warranty, 36-Month/36,000-Mile Warranty On Structure, ** 10-Year Limited Parts & Labor Warranty On Roof  

NA Not Available  
* The height of each model is based on the curb weight of a typically equipped unit on the standard chassis. The actual height of your vehicle may vary by as much as 2" depending on chassis or equipment variations.  
† Sunrise and Sunrise SE floorplans feature a wide-body design — over 96". In making your purchase decision, you should be aware that some states restrict access on some or all state roads to 96" in body width. Before making your purchase decision, you should confirm the road usage laws in the states of interest to you.  
* Not all items available in combination. See dealer for details.  
◊ Capacities shown are tank manufacturer's listed water capacity (W.C.). Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.  
∞ Not available for registration in California.  
S Standard  
O Optional  
** Replaces standard 7.4L engine mid-year 2001 model year.  
** See your dealer for complete warranty documentation information.  

Winnebago Industries' continuing program of product improvement makes specifications, equipment, model availability and prices subject to change without notice. Comparisons to other motor homes are based on the most recent information available.
A Few More Details

WIT Club
Membership in the Winnebago Itasca Travelers (WIT) Club is a great way to meet people and get even more enjoyment from your motor home. As an owner of a Winnebago Industries RV, you can join the Club and take advantage of some great services — like professional travel planning and mail forwarding — and participate in some great rallies and caravans. Call 1-800-643-4892 ext. 1 for more information.

TripSaver
In recent RVDA surveys, Winnebago Industries has been voted number one in the industry for service, parts, and warranty support by dealers across the country. And who would know better than the people who service motor homes? We believe a large part of our service success is due to our commitment to getting you back on the road as soon as possible after experiencing a mechanical emergency. That’s why we created TripSaver. This industry-leading program guarantees that qualifying, in-stock emergency warranty repair parts will be shipped directly from the factory within 24 hours. Furthermore, a Winnebago Industries built part or component that is not in stock will be specially manufactured and shipped air freight.

Warranty Protection
All new Itasca motor homes include a 12-month/15,000-mile basic protection plan, 36-month/36,000-mile warranty protection on lamination and slideroom construction and assemblies, and a standard 10-year limited parts and labor warranty on the roof. As if those aren’t enough, we also stand behind most major appliances and equipment we install (a rarity in the industry) so you can count on the convenience of one-stop service for warranty repairs. It all adds up to some of the most comprehensive warranty programs in the industry backed by the most recognized motor home manufacturer in the world.
