05 Meridian | The year of the diesel.

No other motor home makes it more enticing to move into a diesel pusher than an Itasca Meridian. With the power of a 350 HP Caterpillar® (300 HP Cummins® on 32T) diesel engine and a 10,000-lb. towing capacity, you’ll feel the difference a diesel can make right away. If it’s flexibility you want, the Meridian offers a variety of floorplans, including two with triple slides, and a host of amenities that provide the luxurious diesel pusher experience without breaking the bank. You’ll also benefit from our innovative SmartSpace™ design philosophy that emphasizes user friendly amenities that make the most of the interior spaces.
You’ll feel right at home in your Meridian because you can select the residential features that best suit your needs, like the BenchMark™ full comfort dinette, classic dining table or multi-function dining table. Other key features include ceiling-ducted TrueAir® residential central air conditioning, a flat-face TV and an available Sleep Number® bed. Dual-glazed, flush-mounted, thermo-insulated windows improve thermal efficiency while the day/night pleated shades offer multiple levels of privacy.

You’ll sleep well in the Meridian, thanks to a walk-around queen-size bed with Serta® mattress. A standard slideout allows plenty of room for storage, including a large mirrored wardrobe and an underbed compartment on most models. Mounted high in the corner for optimal viewing is a 20” flat-face TV. The 32T comes with a 20” LCD TV for extra clarity. The front entertainment center components are wired to be viewed on the bedroom TV and, for added convenience, a special sensor lets you control them with your bedroom remote. An innovative three-way latch holds the sliding bedroom door securely in place whether it is open or closed.

Upgrade the bedroom to include a Sleep Number bed by Select Comfort®. Hand-held remotes on each side of the bed let you quickly and independently adjust the mattress firmness to your ideal level of comfort and support...your Sleep Number, which is the Key to a Perfect Night’s Sleep!”

A skylight lends a spacious feel to the bath area. Upscale features include a residential-height toilet, recessed sink, chrome faucet and solid-surface countertops. A Moen® Posi-Temp® valve maintains a consistent shower temperature, even if the overall water pressure fluctuates. The available shower package upgrade includes a fold-down shower seat and a hand-held showerhead. A hamper even comes standard on select models.

Cooking is a joy in this full-featured galley, highlighted by the dynamic look of stainless steel appliances. Meal preparation has never been easier, thanks to the sensor cook feature on the 30” microwave. Solid-surface countertops and sink covers create a workspace large enough for even the most extravagant meals. The faucet comes with a pullout sprayer for quick and easy cleanups. You’ll have plenty of food storage space in the pullout pantry and the two-door or available four-door refrigerator/freezer.
Quality entertainment is a must. That’s why the Meridian comes loaded with a 24” Sony® flat-face TV (27” TV on 39F), amplified antenna and a video selection system. Add a DVD/VCR combo, digital satellite dish and the Deluxe Sound System with 5-channel QSurround™ for an entertainment center that will be the envy of the campground.

Everything in the Meridian is geared for your comfort. Select from a variety of furniture options such as the elegant banquette (34H and 36G), available in fabric or UltraLeather HP™ or the standard hoop-base lounge chair. The lounge chair on select models comes with a pullout table. We also added a number of thoughtful features like a child seat tether anchor in the dinette and additional seatbelts throughout the coach to make travel more convenient. Vinyl tile in the cab entry looks sharp and is easy to clean. A 300 watt inverter comes standard or you can upgrade with a 2,000 watt inverter/charger that powers 110-volt appliances from the house batteries.

The Meridian offers multiple dining table options. The classic dining table seats two and expands to accommodate guests (NA 32T). A multifunction table is also available which expands to seat four or can be used as a computer table or workstation (NA 32T). A round dining table is standard on the 39F. You can also enjoy an afternoon dessert at the pullout table and lounge chair in the 34H and 36G.
Get connected to Sirius® satellite radio programming and start listening to 100 channels of digital entertainment. High-altitude satellites deliver crystal-clear satellite programming anywhere in the U.S. with no signal fades. Includes a Sirius programming subscription with your first year of ownership (requires Kenwood Sirius satellite receiver, shown).

You’re in command when you take the wheel behind the cockpit-style dash. We’ve made your driving comfort a priority with conveniently positioned, large, easy-to-operate controls, a simplified touchpad transmission and a steering wheel that tilts and telescopes to fit the driver. Long trips are even more enjoyable with an electronic compass/thermometer and available powered sunvisors.

Itasca owners are falling in love with the convenience of two-way radios and now they’re available with every Meridian. The set of four multi-channel radios recharges from the coach batteries in the built-in charging station. Nickel metal hydride batteries provide up to 15 hours of standby time and 90 minutes of talk time on a single charge.

Add the available, built-in combination washer/dryer and you’ll never need a Laundromat again (NA 32T). It features multiple wash, time and temperature cycles to accommodate a wide variety of fabrics.

The Rest Easy multi-position lounge offers unmatched seating flexibility and comfort. At the touch of a button it goes from a sofa to a recliner with a pullout ottoman. Touch the button again and it converts into a comfortable bed. Available upgrades include UltraLeather HP upholstery and dual reclining seats.

The BenchMark full comfort dinette is our most comfortable dinette ever. Seat cushions feature innerspring construction just like premium residential furniture and the seats flip up to reveal large storage areas below. BenchMark also readily converts into a comfortable bed. A child seat tether anchor is located in the forward facing dinette seat.

The StoreMore® slideout system is the smarter way to store your gear. Large exterior compartments are designed to accommodate bulky and odd-shaped items and feature remote control door locks for added security. Best of all, the compartments move with the slideout for easy access without crawling on your hands and knees. Gas struts and single-paddle latches allow compartment doors to open easily.

Listen to your favorite music on the exterior entertainment center while you relax in the shade of your awning.

AM/FM stereo radio, CD player, two speakers, 12-volt powerpoint and a TV jack are all contained in a compartment above the floor that doesn't impede storage. A portable satellite dish hookup is also included in the electrical service center to expand your entertainment options (satellite dish not included).

We work hard to make owning a motor home more enjoyable with innovative features like this collapsible ladder (NA 32T). It tucks into a customized enclosure within the StoreMore slideout for quick and easy access. It's just another example of how we use Smart Storage™ to make storage space more usable.

The PowerLine® energy management system monitors electricity usage and cycles secondary appliances off during periods of heavy demand to prevent tripped circuits. Power is automatically restored to appliances and systems when demand is lowered.

Winnebago Industries exclusive TrueLevel™ holding tank monitoring system incorporates Mirus™ detector cell technology to ensure accurate fresh and waste water tank level readings. Mirus detector cells produce a micro-electrical field that detects liquid levels from outside the tank. No more probes to corrode or clog. Just true, accurate readings time after time.

Keep your electrical systems running smoothly even when operating the central air conditioning on 30-amp. shoreline power. The PowerLine® energy management system monitors electricity usage and cycles secondary appliances off during periods of heavy demand to prevent tripped circuits. Power is automatically restored to appliances and systems when demand is lowered.

Interior climate control has never been more precise, thanks to the TrueAir residential central air conditioning from Winnebago Industries®. It utilizes the superior cooling technology of a Coleman®-Mach® cooling unit to supply optimum comfort to every part of the coach. Its basement location provides a low vehicle profile and center of gravity. Plus, it reduces interior noise and is easy to service with residential-style filters. On cool days, the heat pump provides warmth, minimizing the need to use the LP furnace.

Hookups are a snap. The QuickConnect™ coupling valve on the sewer hose allows for quick and easy connections to the waste dump. And with the QuickPort™ service connection hatch, you'll never have to wrestle cords and hoses through tiny holes again. Hoses easily slide into the QuickPort slots while allowing the bay door to fully close. The entire plumbing compartment is heated and includes a wash station so you can clean up sandy shoes before entering the coach.

OnePlace™ The OnePlace™ systems center brings important and frequently used switches, gauges and controls into one central location. It is illuminated by an overhead courtesy light so you can check your system after dark without turning on all the lights.

Keep your electrical systems running smoothly even when operating the central air conditioning on 30-amp. shoreline power. The PowerLine® energy management system monitors electricity usage and cycles secondary appliances off during periods of heavy demand to prevent tripped circuits. Power is automatically restored to appliances and systems when demand is lowered.
Anti-lock air brakes give you dependable stopping power in all road conditions. The brake pedal is mounted solidly to the steel cab deck for maximum feel and control.

A large air spring near each rear wheel provides a cushioned ride you can’t experience with smaller, multi-bag systems. The air springs release or take on air as the axle moves up and down to keep the coach level and steady over rough roads. A wide-track stance helps promote stability while protecting the air springs from road debris.

The innovative KeyOne™ system lets you open most exterior compartments and doors with a single key so you never have to fumble through a pocketful of keys to find the one you want.

A wide-track stance helps promote stability while protecting the air springs from road debris.

Meridian’s one-piece sidewalls are amazingly tough, as are the hydraulic jacks that keep the coach level and stable when parked. For those seeking to add a touch of distinction, Meridian features our very in-demand full-body automotive paint, stylized aluminum wheels, and an available full-width Itasca mudguard. Driving is even more pleasurable with large exterior mirrors that contain both flat and convex surfaces. The driver-side mirror features a breakaway design and turn signals are incorporated into both mirrors as a courtesy to other drivers.

An auxiliary air supply connection with a detachable 50-ft. hose provides a steady source of air for tires, balls and water toys (air chuck not included).

The 6,500 watt Onan® Marquis Gold™ generator provides power wherever you go. A 7,500 watt Onan Quiet Diesel™ generator is also available.

Power to Spare

柴油推车因其功率和性能而知名，正是您在梅里迪安7.2L 350马力卡特彼勒®柴油发动机（NA 32T）上所获得的。先进的电子控制系统帮助发动机运行更平稳，具有更高的燃油效率。一个带有助行器的排气制动器也标准配置，使您可以使用发动机来帮助缓慢车辆，延长制动寿命。发动机链接到 Allison®电子控制变速器，具有Smart Logic。它实际上会“学习”您的驾驶习惯和精细化的换挡点以最大化性能。

## Warranty

- 12-month/15,000-mile basic limited warranty
- 36-month/50,000-mile warranty on structure
- 10-year limited parts & labor warranty on roof skin

1. The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please check with your dealer for further information.
2. Meridian footprints feature a wide-body design — over 96”. In making your purchase decision, you should be aware that some states restrict access on some or all state roads to 96” in body width. Before making your purchase decision, you should confirm the road usage laws in the states of interest to you.
3. Not all items available in combination. See dealer for details.
4. Capacities shown are tank manufacturer’s listed water capacity (W.C.). Actual filled LP capacity, which includes GVWR, GAWR, and GCWR as well as adequate trailer brakes. Please refer to the Operator’s Manual of your vehicle for further towing information.
5. The load capacity of your motor home is designated by weight, not by volume, so you cannot exceed the maximum gross vehicle weight (GVW) or maximum gross weight (GWM). Before making your purchase decision, you should confirm the road usage laws in the states of interest to you.
6. Not all items available in combination. See dealer for details.
7. See separate chassis warranty details provided in owner’s packet.
8. See your dealer for complete warranty information.
9. Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.
10. NA Not Available

## Standard

- Optional Winegard® systems continuously improving program of product improvement makes specifications, equipment, model availability and prices subject to change without notice. Comparisons to other motor homes are based on the most recent information available.
Not all motor homes are created equal. SuperStructure® is the term given to Winnebago Industries’ structural motor home design and construction. Rather than a single component, it is the culmination of design integration that incorporates steel and aluminum substructures, composite-design laminated floor risers, interlocking joint technology and Thermo-Panel® floor, roof and sidewalls to form an incredibly strong, durable vehicle body.

- **Laminated risers** feature a welded aluminum core for superior strength and provide a stable base for the floor structure and storage compartments.
- **Critical steel components** are treated with an advanced electrodeposition coating process that provides superior corrosion protection.
- **The foundation substructure** assembly is precision-aligned to maximize longitudinal and cross-coach support, as well as strength and durability.

Interlocking joint construction utilizes advanced aluminum structural components to create integrated floor-to-sidewall and sidewall-to-roof joints. This design effectively distributes the weight of the walls and roof, making a stronger and more durable body than competitor designs that require screws to carry the weight.

We invented Thermo-Panel® sidewall construction and, over the years, have perfected this innovative composite construction process. It combines an exterior fiberglass panel, high-density block foam insulation and welded aluminum support structures to create some of the strongest, most durable and lightweight sidewalls in the industry.

Built to a higher standard. The Meridian features a crowned, one-piece fiberglass roof, backed with a 10-year limited parts-and-labor roof skin warranty. Fiberglass offers superior strength, attractiveness and durability over the rubber roofs found on many competitive models which can chalk, streak and degrade over time. Fiberglass also provides increased puncture and tear resistance.

Winnebago-Itasca Travelers (WIT) is a club for owners of Winnebago Industries motor homes. WIT is a great way to meet people and offers you:
- Caravans and rallies
- Local and state group activities
- RV travel benefits

**Committed to service.** We back our motor homes with the industry’s best service after the sale.
- 12-month/15,000-mile basic limited warranty
- 36-month/36,000-mile warranty on structure
- Standard 10-year limited parts-and-labor roof skin warranty
- Complimentary 24-hour roadside assistance program
- TripSaver Fast Track Parts. TripSaver guarantees that in-stock warranty parts ship directly to your dealer within 24 hours.
- National dealer service network

**Recognized quality.** Recreation Vehicle Dealer Association members annually rate RV manufacturers on the quality of their products, and sales and service support. Winnebago Industries has achieved the coveted Quality Circle award every year since its inception, the only RV manufacturer to do so.

**WARNING:** Joining WIT has been known to cause excessive fun. Winnebago-Itasca Travelers (WIT) is a club for owners of Winnebago Industries motor homes. WIT is a great way to meet people and offers you:
- Caravans and rallies
- Local and state group activities
- RV travel benefits

Seat belts are your most important hookup. Always buckle up.
