Take a Tour
We're proud of our process, state-of-the-art facilities and the people who make Winnebago Industries number one. We invite you to visit our factory in Forest City, Iowa, for a first-hand look at the dedication and technology behind every motor home we build.

Recognized Quality
The Recreation Vehicle Dealer Association annually rates RV manufacturers and awards the Quality Circle award to manufacturers who provide exceptional products, service and support. Winnebago Industries is proud to be the only manufacturer to receive this award every year since its inception.

Committed to Service
We back our motor homes with the industry's best service after the sale.

- 12-month/15,000-mile basic limited warranty
- 36-month/36,000-mile warranty on structure
- Standard 10-year limited parts-and-labor roof skin warranty
- Complimentary 24-hour roadside assistance program
- RV Technical Assistance Hotline
- RV Service Appointment Assistance
- Emergency Trip Interruption
- Emergency Message Service
- Nationwide Trip Routing
- Fee-Free Travelers Cheques
- TripSaver Fast Track Parts. TripSaver guarantees that in-stock warranty parts ship directly to your dealer within 24 hours.
- National dealer service network

08 SUNRISE

On The Cover:
32H Clear Sky Full-body Paint

Above:
32H Wildwood with Sierra Maple

Get more of what you want in a motor home in the 2008 Itasca Sunrise.® Choose from five models with a wide variety of features to personalize your motor home experience. Double slideouts; triple slideouts; there’s even an incredibly spacious 23-foot full-wall slideout on the new 32H. You’ll find a Sunrise built for you and loaded with innovative SmartSpace™ features that make the most of the available space. You’re sure to appreciate the 7’2” interior height and your choice from three fabrics selections and two cabinet woods. Choose the standard graphics or upgrade to full-body paint for a bold exterior look. When you want options, the Itasca Sunrise is your first choice in motor homes.

Make it your own.
Cooking is a joy in a galley filled with upscale amenities like Corian® solid-surface countertops, an Amana® three-burner range and a Sharp® microwave or available microwave/convection oven.

Relax to the life-like surround sound of the available Home Theater Sound System that includes a receiver, amplifier, DVD player, five speakers and a subwoofer for an enhanced movie experience. A 600-watt inverter can be added so you can enjoy features of the entertainment center without shoreline or generator power.

In the bedroom, the expanse created by the slideout allows for a walk-around queen-size bed with underbed storage and a mirrored wardrobe. Most models also offer an available washer/dryer combination.

Other thoughtful features include dual-glazed windows for thermal efficiency and the PowerLine® energy management system that monitors 110-volt electrical usage to prevent power overloads.

Storage The cabinetry throughout the Sunrise features a catalyzed finish that will look great for years.

Bedroom All models offer plentiful storage and an available 20” bedroom TV. The 3SL even offers an available king-size bed.

Dinette The U-shaped dinette in the 32H converts into a large, comfortable bed.

Eurol Chair Relax in front of the TV in this available, stylish UltraLeather® recliner with ottoman (NA 32H).

The TrueAir residential central air conditioning system employs a Coleman®-Mach® cooling unit that cools 40% faster and runs 10% quieter than roof airs. Its basement location prevents condensation runoff and maintains a low vehicle profile. It also includes a heat pump that warms the coach without starting the furnace.
Driving is a breeze with an ergonomic dash that puts you in total control on the road. The available rearview monitor with one-way audio gives you peace of mind when backing and a sideview video camera system can assist you through turns. The video camera system is activated by the turn signal and allows the driver to view the sides of the coach through the available rearview monitor system. The cab seats are available in UltraLeather™. This innovative fabric is softer than leather, looks great and cleans easily.

The RV Radio® includes AM/FM stereo, CD player, iPod/MP3 input, weather band and large, easy-to-use buttons and knobs. Upgrade your RV Radio with the available Sirius® Satellite radio package. Sirius brings you 130 channels of crystal-clear programming and a free six-month subscription. This package is also iPod ready so you can listen to and control your iPod while you drive.

Need to wash off dirty feet before entering your Sunrise? Use the wash station in the service center.

**Dash** Everything is positioned to your comfort. A steering wheel remote lets you adjust the RV Radio while you keep your eyes on the road. A dash workstation gives the passenger a place to set a laptop computer.

**Driver’s Seat** For an extra comfortable ride, choose the 6-way power-adjust driver’s seat with available UltraLeather.

**Storage** A pass-through storage compartment on the 32H provides a place for larger items.

**WEB** TrueLevel™ Eliminate tank-level guesswork with our exclusive TrueLevel™ holding tank monitoring system. It incorporates detector cells that determine liquid levels from outside the tank. No probes means no more corrosion, just accurate readings, time after time.

**WEB** QuickPort Large, color-coded labels make hookups a snap. Use the QuickPort® service connection hatch to run hoses and cords to the service center while the bay doors are closed.

**WEB** SIRIUS® RV RADIO®
Note: Dimensions shown are for sleeping space only and may vary due to styling differences. Dashed lines denote overhead storage areas.

1. The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please contact your dealer for further information.

2. Sunshine floorsplans feature a wide-body design – over 96". In making your purchase decision, you should be aware that some states restrict access on some or all state roads to 96" in body width. Before making your purchase decision, you should confirm the road usage laws in the states of interest to you.

3. The load capacity of your motor home is designated by weight, not by volume, so you cannot necessarily use all available space when loading your motor home.

4. Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.

5. Capacities shown are tank manufacturer’s listed water capacity (W.C.). Actual filled capacities vary by the water usage in your surroundings. See your dealer for details.

6. Measurements are based on the most recent information available. See your dealer for specifications.

7. Actual towing capacity is dependent on your particular load-towing circumstances which includes the GVWR, GAWR, and GCWR as well as adequate trailer brakes. Please refer to the Operator’s Manual of your vehicle for further towing information.

8. See separate chassis warranty.

9. See your dealer for complete warranty information.

Itasca motor homes are built by Winnebago Industries, the company that defined motor homes. The company that built its reputation on quality construction. The company that transformed the motor home concept into a way of life.

Today, Winnebago Industries brings that reputation for quality and its 49-year history of motor home innovation to the design and construction of every motor home. It's all a part of SuperStructure®, our exclusive system of proprietary structural components that instills each motor home with improved strength and durability.

Solid Foundation Steel and aluminum truss work provides a solid, flat foundation for the floor and sidewalls. Winnebago Industries engineers also take special care to distribute the weight of components to ensure proper handling and stability.

Interlocking Joints The floor, sidewalls and roof are all integrally connected using interlocking joints. This creates a coach body that acts as a cohesive unit for improved strength and durability.

E-Coating Winnebago Industries employs an exclusive 12-stage automotive-style dip tank process to apply an advanced electrodeposition coating on critical steel components for superior corrosion protection.

Thermo-Panel® Sidewalls Invented by Winnebago Industries, Thermo-Panel construction combines a fiberglass panel, high-density, block-foam insulation and aluminum support structures to create some of the most durable, lightweight sidewalls in the industry.

Attention to Detail Whether it’s sending every coach through a high-pressure water tunnel to check for leaks or labeling each individual wire and bar-coding parts to save time and frustration during service, Winnebago Industries considers every detail to ensure your Itasca motor home provides you with years of pleasure.

Strong as Steel Appliances are secured directly to embedded steel plates for added safety. Windshields are also mounted in steel with an automotive-style sealant; lesser designs use a rubber gasket to mount the windshield in fiberglass.

Fiberglass Roof The Sunrise features a crowned, one-piece fiberglass roof, backed with a 10-year limited parts-and-labor roof skin warranty. Fiberglass offers superior strength, attractiveness and durability over the rubber roofs found on many competitive models which can chalk, streak and degrade over time. Fiberglass also provides increased puncture and tear resistance.
